SUMMARY STATEMENT

Computer Science graduate with strong expertise in Java and full-stack development, certified by NPTEL (IIT Kharagpur). Completed hands-on training at Cranes Varsity, Bangalore, and held multiple virtual internships including Java Backend Developer at foozfood Global LLP, Java Programmer at codesoft, and currently interning as a Java Developer at Saiket System. Proficient in OOP concepts with problem-solving experience on hackerrank. Seeking a full-time opportunity as a Java Developer to contribute to impactful backend solutions.

EXPERIENCE

Java Development Intern

Sep 2025- Present

SaiKet Systems, Remote

Engaged in hands-on Java development, working on multiple mini-projects that apply core Java concepts.

- Developed applications like Calculator, To-Do List, File Analyzer, and Banking System.
- Utilized OOP, exception handling, file I/O, and user input techniques.
- Improved logical thinking and real-world coding practices.

Java Programmer Intern

Jun 2025 – Jul 2025

CodeSoft, Remote

Completed a virtual internship focused on Java programming fundamentals through practical tasks.

- Built mini projects including Number Guessing Game and Student Management System.
- Applied object-oriented programming and Java basics in task execution.
- Strengthened hands-on skills in coding and debugging.

Java Backend Developer Intern

May 2025 – Jun 2025

FoozFood Global LLP · Remote

Worked on backend modules using Java, gaining exposure to API integration and database operations.

- Implemented core backend functionalities with Java and JDBC.
- Learned API development, SQL queries, and code management tools.
- Experienced real-time backend development processes.

Full-Stack Development Trainee

Jan 2025 – Apr 2025

Cranes Varsity, Bangalore · On-site

Completed intensive full-stack development training with practical implementation of technologies.

- Gained proficiency in Java, Spring Boot, HTML, CSS, JS, and MySQL.
- Built end-to-end full-stack web applications.
- Strengthened both frontend and backend development skills.

EDUCATION

Bachelor of Engineering in Computer Science

6.7CGPA

Bheemanna Khandre institute of Technology, Bidar, Karnataka

2020-2024

SKILLS

Programming Languages:

Java, JavaScript, HTML, CSS

Frameworks & Libraries:

Spring Boot, JDBC, Servlet, JSP, Bootstrap

Web Technologies:

HTML5, CSS3, JavaScript, RESTful APIs

Databases:

MySQL, SQL

Core Java Concepts:

OOP (Object-Oriented Programming), Exception Handling, File I/O, Multithreading, Collections

Tools & IDEs:

Eclipse, IntelliJ IDEA, Visual Studio Code, Git, GitHub

PROJECTS

Privacy Preservation in Multi-Cloud Secure Data Fusion for Infectious Diseases

Role: Developer / **Technology Used:** Java, MySQL, Cryptography Libraries

Description: Developed a secure multi-cloud system to preserve privacy in sharing infectious disease data.

- Designed a system for privacy-preserving data fusion across multiple clouds.
- Implemented encryption techniques to protect sensitive medical data.
- Developed access control mechanisms for secure data sharing.

Employee Management System

Role: Developer / **Technology Used:** Java, File I/O

Description: Built a console-based application to manage employee records efficiently.

- Applied OOP concepts to model employee data and operations.
- Implemented file handling for data persistence.
- Developed menu-driven interface with input validation and exception handling.

Personal Portfolio Website

Role: Frontend Developer / **Technology Used:** HTML, CSS, JavaScript

Description: Created a responsive portfolio website to showcase skills, projects, and internships.

- Designed interactive UI with smooth scrolling and section highlights.
- Implemented dark/light mode toggle and mobile responsiveness.
- Integrated contact form and resume download functionality.

Portfolio

CERTIFICATIONS

- Java Programming – NPTEL (IIT Kharagpur)
- Full-Stack Development – Cranes Varsity, Bangalore

Problem-Solving:

- Solved Object-Oriented Programming challenges on HackerRank (Basic Level Badge)
